

To F.F.A.

Leicester,
Feb. 24/46.

My dear Frank;

10 It was very kind of you to
write me of your father's health
as you did, — and I meant to have
said so to you a week ago & more.
I had been troubled at the newspaper
reports. Since your letter, my wife
has seen your father, and brought
report of his further improvement;
and I hope you may get time to send
~~me~~ a p. card (or other word) soon.
I trust that he will be very prudent
indeed, and suffer no exposure.

The weeks now approaching are
very particularly trying, & full of
hazard. We hope it has proved
true that George's little girl recd.
no serious injury from her fall.

My love & regards for your father
and all his family. Yrs. truly
(S. May)
When you write, say how }
Wendell's wife is. }
